MK-60

MK-60 Ceramic Saw

The MK-60 hand-held saw is for dry cutting tile and other ceramic materials. It has adjustable depth of cut and plunge cutting capability. The laser guide ensures accurate, straight cuts every time. The convenient depth control features make adjustments quick and precise. Built for one-handed operation and ergonomically balanced the saw reduces operator fatigue. The dust extraction port with hose can be quickly connected to a vacuum system resulting in less airborne dust. 90 day limited warranty.
