

PLANK KUTTER SERIES

Plank Kutter Diamond Blades are specifically manufactured for cutting fiber cement plank siding, stucco, and tile underlayment board but will also cut most other masonry materials like brick, block, landscape pavers, concrete and asphalt. The Turbo Continuous Rim design cutting matrix quickly removes stock from the cut, keeping the blade cool and true running. Available in all popular sizes to fit corded and cordless electric angle grinders, portable saws, table and miter saws.

Turbo Rim Carded Blade

Diameter	Width	Arbor	Part#
4" (102 mm)	.080	20 mm-5/8"	156993
