

MK-190 Wet Diamond Core Bits

The MK-190 Core Bits offer many benefits:

■ **Vacuum Braze Technology**

Provides the strongest bond between diamond particles and the drilling surface of core bit.

■ **Drill Time Reduced**

No bond to wear away. Diamond particles work at peak performance at all times. Self-sharpening diamond cutting edge.

■ **Reverse Spiral Thread**

Delivers continuous water feed to the cutting surface areas. Extends bit life and improves drilling speed.

■ **Core Ejection Feature**

There is no need to stop the drilling process to clear plugs. Patent pending ejector slot clears debris and plugs during repeated drilling operations.

■ **Fits Drills**

Designed to operate on any corded or battery operated hand drill.

A variety of sizes allow drilling holes for towel racks, lights, toilet roll holders, mirrors, shelves, soap dishes, tooth brush holders and blinds or curtains.

The **MK-190 Core Bits** are easy to use on both wall and hard surface flooring

1. Place the raised sintered edge of the bit at a 45 degree angle to the tile. Start drilling to create a half circle.

2. Continue drilling and raise the bit to 90 degrees to complete the hole in the tile.

3. Patent pending ejector slot clears the plug during repeated drilling operations.

The unique design of the MK-190 Core Bit provides excellent wear rates, speed of cut and cut finish.

The high performance **MK-190 Core Bits** will drill a wide range of hard tiles.
