

MK Diamond Products, Inc.

Multi-Application Diamond Blade

**TPX-40™**

Supreme Grade Wet/Dry Diamond Blades

MK Diamond Products' new TPX-40™ multi-application diamond blade is designed for maximum life and speed. A newly developed bond allows for cutting a wide variety of materials including brick, granite, block, pavers, concrete, bluestone and asphalt.

**Core Cutouts Provide Additional Cooling**

• **NOISE REDUCTION**

The laser welded segment over the gullet design helps to reduce noise by as much as 10db while providing efficient removal of cutting debris

• **COOLER CUTTING**

The additional core cutouts provide improved cooling during deep cutting, which helps keep the core from warping or losing tension.

• **LONGER LIFE**

The tall segment heights provide 30% more cutting life; 10" and smaller diameter blades have a 10mm segment height and the 12" and larger diameter blades are 15mm.

**7 IN 1 MULTI-APPLICATION DIAMOND BLADES**

Asphalt

Block

Granite

Brick

Concrete

Bluestone

Pavers
