

Core Bit Tube Extensions

MK Diamond's Core Bit Extensions offer a quick, easy and low cost way to achieve greater drilling depths with core bits. The 12" tube extensions thread into our standard or professional core bits. Multiple tube extensions may be used extending the drilling depth in increments of 12".

1.

Unscrew the top of core bit

2.

Screw core bit top to the top of the extension tube

3.

Screw extension tube onto core bit

Tube Extensions are 12" in height

Diameter	Length	Wall Thickness	Nut	Part #
1-1/4" (32mm)	12"	2.0mm	5/8"-11	168451
1-3/8" (35mm)	12"	2.0mm	5/8"-11	168450
