

MK Diamond Products, Inc.

MK-1280 FEATURES

- 16" blade capability has a 5.75" depth of cut
- Blade guard has garden hose style connection for optional wet cutting
- Micro V-belt system for maximum horsepower transfer
- Jig-welded steel frame assembly
- Blade guard gives 180° coverage
- Drop down blade shaft is built with sealed and permanently lubricated heavy-duty bearings for easy replacement
- Cast aluminum blade guard with stainless steel water tubes that will not bend or rust
- Adjustable water supply for wet cutting
- Includes rip guide and 16" MK-414PBSL diamond blade
- One-year limited warranty

The MK-414PBSL (Penter Brick Slant Slot Blade) has been designed to improve cutting performance. The slant slots provide additional cooling and fines removal, improving the speed of cut in hard/dense materials. (part #160765)

The MK-762DMX Supreme quality, is a dry cutting diamond blade for brick, block, concrete, and pavers. Segments are laser welded for increased durability and long life. This high speed blade uses an ar-rayed pattern of diamonds for maximum abrasion/material removal. (part #161294)

MK Diamond Products, Inc.

MK-1280 Wet Cutting Brick Saw

The MK-1280 is designed for landscaping, paving and masonry job sites. It's simple to operate and requires limited maintenance. This saw is designed for cutting large format bricks and pavers. The steel frame provides durability and strength. The closed back design with vacuum port helps in dust control. One-year limited warranty.
