

MK Diamond Products, Inc.

### MK-MCB Metal Cutting Blade

The MK-MCB is a diamond rim saw blade engineered to cut rebar, angle iron, cast iron, iron pipe, steel, sheet metal and ferrous metals. The blade utilizes advanced brazing technology where diamond particles are fused directly to the steel core creating the strongest heat resistant bond available when cutting without water cooling. For use with angle grinders and circular saws. Vacuum brazed. Maximum RPM: 13,300

Diameter	Width	Arbor	Part#
4-1/2" (114 mm)	.060	7/8"-5/8"	173115
