# POWER TOOLS™

## Smart, Tough Power Tools. Designed by contractors, built to last.

We owned and operated successful masonry companies for over 30 years. Decades of experience taught us about dust problems: the mess, the expense, the health hazard and liability.

Today we build smart, tough power tools that eliminate the dust problem. Built for contractors, by contractors.

The award-winning line of iQ Power Tools are the world's first dry-cut masonry saws with integrated dust control. Our proven technology eliminates the dust hazard. That means a cleaner, safer, more efficient job site.

Save time, save money, save lives with iQ Power Tools.
